
BRUNO TRENTINI

📍 London, Maida Vale W9 ✉ bruno.trentini@outlook.com 📞 +44 (0) 7496 005 137
🌐 brunotrentini.com 👤 [btrentini](#) [in](#) [btrentini](#) 📁 Python, SQL, Java, Julia, Matlab

EDUCATION

UNIVERSITY COLLEGE LONDON (UCL)	Sep 2019 - Sep 2020
M.Sc. Data Science & Machine Learning, <i>Distinction TBC</i>	London, UK
UNIVERSITY COLLEGE LONDON (UCL)	Sep 2018 - Nov 2018
M.Sc. Robotics & Computation, <i>Changed to the above degree</i>	London, UK
UNIVERSIDADE TECNOLÓGICA FEDERAL DO PARANÁ (UTFPR)	Mar 2012 - Sep 2013
PgDip. Telematics & Computer Networks	Curitiba, Brazil
PONTIFÍCIA UNIVERSIDADE CATÓLICA DO PARANÁ (PUCPR)	Jan 2018 - Dec 2011
BSc. Information Systems	Curitiba, Brazil
Exchange to Université de Technologie de Compiègne	Compiègne, France
Exchange to Université Bishop's	Lennoxville, Canada

EXPERIENCE

KIT-AR · MACHINE LEARNING RESEARCH INTERN	📍 London, UK · Jun 2020 - Sep 2020
- Devised a new method for unsupervised human activity recognition - Modelled time-series prediction algorithms with Python (LSTM, VRAE, LPC, DTW, CTC, HMM) - Created a dataset containing video, spatial maps and sensor data with Microsoft HoloLens	
NVIDIA · AI STARTUPS ECOSYSTEM MANAGER	📍 London, UK · Dec 2018 - Dec 2019
- Mentored 300+ AI startups on machine learning development with NVIDIA GPUs and SDKs - Automated internal processes using Python, making colleagues 48x more efficient - Organised events in Oxford, Cambridge and London with 100+ investors and startups.	
HOTELBEDS (GTA-TRAVEL) · COMMERCIAL ANALYTICS MANAGER	📍 London, UK · Oct 2017 - Oct 2018
- Led cause-and-effect analyses that resulted in 2% YoY Growth - Implemented fraud and churn detection procedures (Python, SQL; SVM, RF, Deep Learning) - Created Tableau dashboards from data wrangling (SQL) to presentation (8K+ views/year) - Provided daily insights to the CSO, CTO and VPs of Sales regarding traveller demands	
ALLIANTS · CONSULTANT	📍 London, UK · Oct 2014 - Sep 2017
- Data engineering and analytics consultant (SQL, Python) for the Travel Industry accounts - Product owner and tests manager for the Four Seasons mobile app - Optimised the marketing spend of a UK Government Agency by 30%	
GVT · PRODUCT MANAGER II	📍 Curitiba, BR · Jun 2012 - Sep 2014
- Managed the development of a new product with a budget of R\$2Mn and 30 FTE - Reduced CRM costs by 60% through cause-and-effect analysis using SQL to extract data	

ERNST & YOUNG · TRAINEE OF ADVISORY

📍 Curitiba, BR · Jun 2011 - Jun 2012

- Developed financial forensic procedures using SQL and ACL to detect systemic vulnerabilities in highly regulated companies.

HSBC · TRAINEE SOFTWARE ANALYST

📍 Curitiba, BR · Jun 2008 - Dec 2010

- Documented software with UML notation
- Developed COBOL and DB2 applications in a global data integration project.

AWARDS

🏆 Awarded “Best Business Solution” in the “Data Science Society Hackathon 2019” comprised by 20 teams and 100 participants. Elected team leader by group members. (Dec 2019)

🏆 Awarded “Professional Membership” in the British Computer Society (Jun 2017).

🏆 Awarded CREPUQ (BCI) Scholarship for an exchange program at “Bishop’s University”, Canada (Jan 2011 - May 2011).

🏆 Awarded Cultural exchange and intensive French course at “Université de Technologie de Compiègne”, France (Jul 2009). Only 17 students from PUCPR have been selected.

🏆 Runner-up out of 40 teams at the III Mobile Games Exhibit promoted by PUCPR with a game developed in JAVA J2ME with 2 students (Dec 2009). Game Bug Busters available on Github <https://github.com/btrentini/bugbusters>

CERTIFICATES

📄 Certified Strategic Product Leader by Blackblot (Nov 2015)

📄 Certified ITIL v3 Foundation by Exin (Mar 2013)

📄 Languages: Fluent in English and Portuguese, Intermediate Spanish and Basic French

RELEVANT COURSEWORK & PROJECTS

📄 US Census 1994/1995. Work sample exploring end-to-end Data Science. Task: understand and predict income threshold of US Residents. Available on [Google Colab](#)

🏆 [Plankton Challenge](#): Leading a team of 5. Implemented Deep Learning models with Pytorch to classify 121 classes of Plankton across thousands of images. Log loss was equivalent to 3rd out of 1049 teams (expired Kaggle Competition).

📄 [Developed a social network for dentists and patients](#) - JAVA full stack - with frontend in JSP and FLEX and end-to-end solution using SQL, Hibernate, Apache Tomcat, Apache Derby DB. github.com/btrentini/odontobook

📚 Relevant coursework, MSc. DATA SCIENCE & MACHINE LEARNING:
DEEP LEARNING (CNN, RNN, LSTM, Autoencoders), REINFORCEMENT LEARNING (QQ-Learning, Dyna-Q, Off-policy and On-policy methods), GRAPHICAL MODELS (Hierarchical Models, Variational Inference), APPLIED MACHINE LEARNING (Numerical Optimisation, KNN, RF, SVM, Boosting, Ensemble Methods), APPLIED BAYESIAN METHODS (Belief Networks, Conjugate Priors), STATISTICAL NATURAL LANGUAGE PROCESSING (BERT, AllenNLP, NLTK, RNN, LSTM)
